ESD

IN 14602 Report on new wave of dismissals and transfers in GAI.
BRN 793 Fear CARBOHYDRATE will be dismissed because he lives in
13 Oct 48 Western Sector of Berlin and unable to move to Soviet
Sector due to housing shortage. If dismissed he will
retain 2 well-placed unwitting informants, but operation
will be seriously handicapped.

IN 15101 View intensified dismissals in GAI of all members in western
BRN 815 Sectors, CARBOHYDRATE dismissal in near future must be expected.
10 Oct 48 Attempts being made to recruit successor.
Advised 19 Oct that under new policy GAI must dispense with his
services. Offered position Central Justice Admin. This vetoed
by president who also reluctant to employ western sector resident.
CARBOHYDRATE permitted to continue work in GAI until suitable
other employment found for this "faithful SED member".
Due housing shortage, moving CARBOHYDRATE, wife and 4 children
to Sov Sector impossible but exploring possibilities.

KAPOK B-258
16 Sept 48

Scheduled to operate in Berlin or Sovzon under PASTIME. Case officer: Clarence Updike. An official of the GAI, LINCOLN will probably be retained in any reorganization of that agency. An SED member with a strongly nationalistic background, LINCOLN volunteered his services to us as an informant in order that he could later prove that he was an unwilling member of what he perceives will develop into a Gestapo organization. An excellent report writer, LINCOLN will need only a letter drop to continue in the business. Should there be continued mail traffic between the Eastern and Western Zones under PASTIME conditions, LINCOLN might function even without a letter drop, using ordinary mail and secret ink.
